Title of the program- Webinar on Application of Intellectual Property for Engineers

Date-29th Aug 2020

Name of program coordinator/s- Prof. P. L. Jadhav, Prof. S. S. Patil

Designation & department- Asst. Professor, Mechanical Engineering Dept.

Type of Activity/Program- Webinar on Google meet

Content in brief- This program is organized by ISHRAE. The subject of IP is very important for engineers. Knowledge of IP helps an engineer to not only protect his valuable ideas and thus create 'intellectual property' but also to promote its licensing and development in the larger interests of society. Mr. Mahesh Nikam focuses on Knowledge of IP enables you to improve the quality of your own work and It can drastically change the quality of your engineering research or even your own efforts to develop something new. IP searches provide an accurate picture of the growth of the engineering fields. IP includes three traditional areas: copyrights, trademarks, and patents.

Beneficiary – UG students

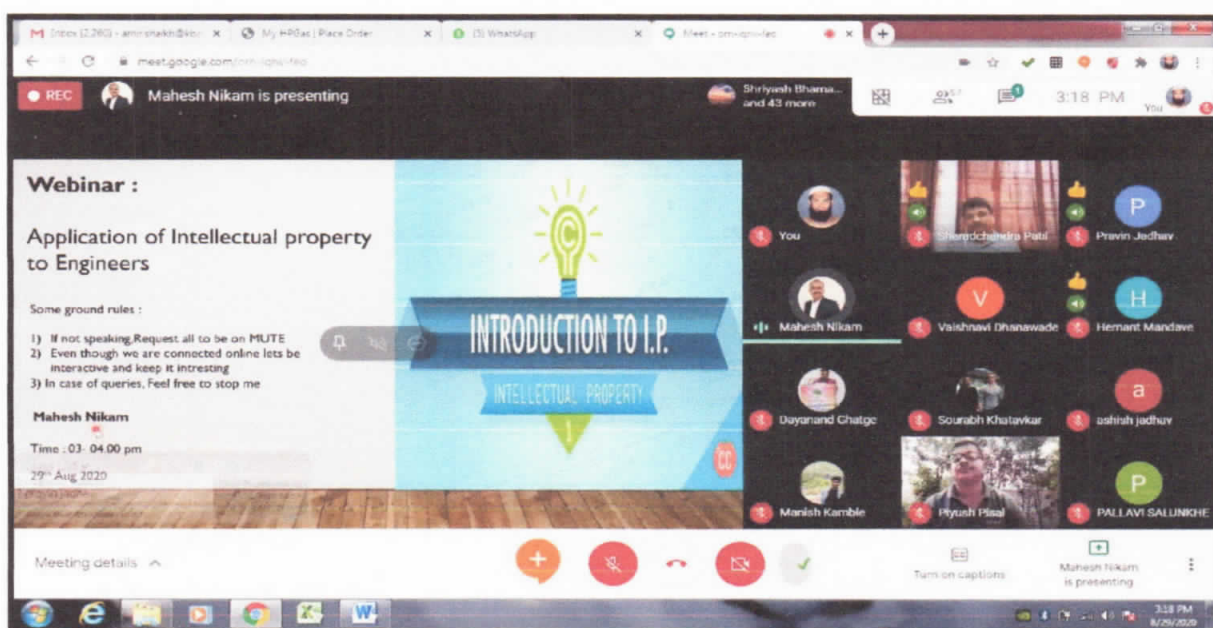

Total no. of participants- 110

Resource person details- Mr. Mahesh Nikam

Comments of program coordinator based on the feedback received- Students understand that Intellectual Property Law is the perfect opportunity to introduce themselves in to the field of research . It is appropriately outlined by resource person , and includes an overview of the major IP Law areas.

Title of the program- Late K A Gandhi Memorial Lecture on "Military Technologies of the Future"

Date- 08<sup>th</sup> Oct 2020

Name of program coordinator/s- Prof. D. A. Ghatge

Designation & department- Asst. Professor, Mechanical Engineering Dept.

Type of Activity/Program- Technical lecture on Google meet

Content in brief-

Col. Ravindranath Tiwari focuses on what changes are likely in military technology over the next upcoming years. Defense resource decisions need to be based on concrete analysis that breaks down the categories of major military technological invention and innovation one by one and examines each. Existing trends in laboratory research can help us understand the future without indulging in rampant speculation. Forecasting the future would be hardest when complex concepts are involved and when large military organizations are the key actors.

Beneficiary – UG students

Total no. of participants- 110

Resource person details- Col. Ravindranath Tiwari

Comments of program coordinator based on the feedback received-

Students thought and their opinion is that Advances in information technologies contribute a growing array of strategic capabilities for our forces and it is very important to improve the status of military as the Army exists to serve the people, defend the nation, protect vital national interests and fulfill national military responsibilities.
