Subject: Proposal for Course on 'Certification in Estimation and Planning'

Sir,

We are pleased to introduce our self as a premier service provider to the construction industry, serving their continuously changing needs and requirement in the area of Project Management. **infini has opted a center recognition from EAL, UK (Excellence, Achievement and Learning)**. At infini institute it is our endeavor to solve the construction industries' workforce dilemmas by training them into competency enhancement and value education. It is indeed our pleasure to present ourselves as a Software Training Centre, specialized in giving trainings in construction management to the corporate officials. You can trust upon us as provider of training in the area of Estimation, Project planning, scheduling, monitoring and controlling of project resources and cost.

Today, the construction industry is in dire need of skilled, reliable and competent work force, at all levels, to best handle today's challenges in the globalized sector. With the advancement in the field, the gap between industry and institute has increased. It is our general observations that being a qualified Civil Engineer, they are unable read a drawing, visualize a bar chart, find quantities, BBS, BOQ and budget. They are lacking in basic planning, Handle labors, measurements and billing etc. ... Then what role are we expecting to handle as a 'Civil Engineer'? This calls for a dire need of imbibing necessary technical, function, software and soft skills.

Training needs identified:

The sole purpose is to train students in Estimation and planning is to calculate all building quantities with the help of excel and AutoCAD, prepare schedule by using MS project software. Further, upon sufficient field exposure and additional advanced training, they can use the software for project cost & time control followed by analysis of delay.

Quality policy: To impart need based training to the fullest satisfaction of the participants.

Commercials for Estimation and Planning Program:

Duration of training: Seven days, 8 hour per day.

Infrastructural facilities & support:

- 1. Organization has to ensure well equipped laboratory with sufficient PCs / laptop. Autocad, Microsoft Excel, Microsoft Project shall be installed on it.
- 2. LCD projector and white board.
- 3. Collar mike and audio system is preferred.

Instructor: Prof. Baliram Ade and Mr. Vipul Patil (Profile is enclosed)

Certificate Course in "IOT using Python"

Overview of Institute and Department:

Rayat Shikshan Sanstha's Karmaveer Bhaurao Patil College of Engineering Satara established in 1983, has created its unique identity by way of imparting multiple opportunities to students for acquiring quality education; making all round development of their inner traits and making them better citizens. The institute at present offers five undergraduate courses and two postgraduate courses. The Computer Science and Engineering Department is the well-established department with well-equipped laboratories with a vision of all round development of the students and faculty.

About the Certificate Course:

The Internet is the Next generation industrial revolution. It is going to change our living style you didn't imagine before, the way of communication between people transpose in many ways. At every time of industrial revolution, massive changes are occurring in the market economy with these giant companies fall, and some other companies raise up from a different platform.

Imagine a world where all the devices connect to other devices like home appliances, workspace, car and many more. In the world lights are turn-off automatically, coffee machine makes coffee after turn off the alarm; Door opens automatically when the person arrived at the door and also locks the door when unknown person/stranger came in front of the door. You can achieve all these things with IOT.

Python language is similar to Perl object-oriented programming language. With the precise syntax and readability, python programming language became more popular. Python is easy to learn and portable, it is an open source language and supports multiple operating systems including Unix, Mac, Das, and various versions of Microsoft Windows.

Python is efficient, fast and supports programming paradigms that include object-oriented, impressively functional, procedural, etc. With the scripting language, you can develop desktop applications and web-based applications, and it also translated into binary language like Java.

Python in IoT development

Python plays a significant role in developing internet of things, along with python we use different languages for developing IOT those are

- Assembly
- B#
- C
- C++

- Java
- Javascript
- Php
- Python
- Rust and many more

As of now java programming language is widely used for developing the IoT devices now python is coming into the field, with the following features of python most of developers prefer python programming language.

Fees, Eligibility Criteria and Program Structure:

• *enhancing the quality of education and promoting
Community Development*

Overview of Institute and Department:

Over the last few years, there has been a substantial increase of research & development and adoption in various technologies and considerable amount of contributions to this domain from India to various avenues like research, coding, localization, marketing, app store submissions, infrastructure, maintenance, job opportunities etc. have been observed.

About the Certificate Course:

The course aims to cause an enhanced awareness about the significance of soft skills in professional and inter-personal communications and facilitate an all-round development of personality. Hard or technical skills help securing a basic position in one's life and career. But only soft skills can ensure a person retain it, climb further, reach a pinnacle, achieve excellence, and derive fulfilment and supreme joy. Soft skills comprise pleasant and appealing personality traits as self-confidence, positive attitude, emotional intelligence, social grace, flexibility, friendliness and effective communication skills. The focus of this course is on interpersonal and management skills.

Fees, Eligibility Criteria and Program Structure:

Prepare the structure

Dear Sir,

On behalf of Rayat Shikshan Santha's Karmaveer Bhaurao Patil College of Engineering, Satara. I would like to thank you for conducting one week certified course on "Soft Skill and Personality Development", held at our institute on 13th February to 17th February 2019. We are fortunate to have you as professional expertise and credentials volunteer time from your busy schedule to address the students and serve as a Guest Speaker/ Resource Person. Your guidance will definitely enhance the interest of our students in the upcoming challenges in engineering trends and designing.

We wish same kind of cooperation in near future to maintain a relational healthy bond with each other.

Thank you for your presence to grace the occasion.

Thanking you

Yours faithfully,

HOD

The institute is approved by AICTE, New Delhi, recognized by Govt. of Maharashtra and affiliated to Shivaji University, Kolhapur. The institute, at present offers two post-graduate programs and five undergraduate programs.

It is indeed my pleasure to invite you for the **Certificate course on Fusion 360 software** on 1st March to 12th April 2019. In continuation of this I will be glad, if he kindly gives his consent for the invitation for delivering his views.
Awaiting your response, with kind regards.

Yours Sincerely

Subject: Letter of Thanks

Dear Sir,

We are very much thankful for conducting Certificate course on "Fusion 360 Software" held on 1st March -12th April 2019 under lead college program for our S.Y. BTech Mechanical Engineering Students at our Mechanical Engineering Department.

It was really a splendid presentation which exposed students to the field of practices in product development and Design..

Looking forward for your support for the promotion of professional education in future as well.

Thanking you.

Yours Sincerely,

Principal

About The Institute

Rayat Shikshan Sanstha's Karmaveer Bhaurao Patil College of Engineering Satara, established in 1983, has created its unique identity by way of imparting multiple opportunities to students for acquiring quality education; making all round development of their inner traits and making them better citizens. The institute, at present, offers five undergraduate programmers & two postgraduate programmers.

About The Department

The Mechanical Engineering Department is the well-established department with well-equipped laboratories of concerned subjects like, Mechatronics, RAC, I.C. Engine, Fluid Power Engg, Tool Engineering, CAD-CAM, Metallurgy, Metrology, Thermodynamics, Theory of machine, Research Lab etc.

Objective

- Demonstrate knowledge of and apply job entry level skills in computer aided design.
- Describe and apply advanced design based workflows for conceptual design, sketching, solid modeling (freeform, parametric, direct modeling and surface modeling), photorealistic rendering.
- Utilize Fusion 360 cloud based collaboration features for project sharing and design review

Resource Person

Mr. Rohit Badde.
 Freelance Industrial Designer & 3D developer.

Content of the Workshop

In this course you will be learning 3d modelling in Fusion 360. We will be covering the concepts in part module. This course is for beginners who want to learn 3d CAD design from scratch. We will be covering the basics like cross sections and parametric modelling.

Day	Content To be Cover
