

## Activity Based Learning

### Name of the activity: Jigsaw Activity

Date of conduction: 20<sup>th</sup> April 2022

#### Details of the activity:

The various set of questions based on casting processes are given to group of students. Then study time is given to all groups. Once they prepared then started the jigsaw activity. Each group explained each question/concept in interactive manner with clearing the doubts of other students. The students were enjoyed and participated actively in this activity. It encourages cooperative learning among students. It helps improve listening, communication, and problem-solving skills.

Number of students participated: 42

#### Learning Outcome:

Students learnt details of various casting processes and they understood the significance of casting process in manufacturing industry.
