Organizational chart and processes			

Nature and Extent of involvement of Faculty and students	The most important responsibility of individual faculty members is to enhance the student learning experience. For that, subject expert (Guest) lectures are arranged for enhancing the subject knowledge of students. Online sessions were conducted
--	---

<p>in academic affairs/improvements</p>	<p>due to pandemic situations. Induction program were conducted online as per the guidance of the university. College provides industry exposure to students through industry expert persons and enables them to pick up skills besides what is being imparted in the classrooms</p> <p>Collage has taken Initiatives to inculcate the spirit of research amongst faculty. Collage provides financial assistance for publications. For researchers, college provides facilities like using laboratories, internet and flexibilities in timing. For increasing faculty publications, college is providing financial assistance. For research development expert lectures and open discussion sessions has arranged for faculty.</p>
<p>Mechanism/ Norms and Procedure for democratic/ good Governance</p>	<p>While providing all the necessary facilities to the students, faculty and staff, the system takes care of feedback of implementation. For overall improvements in Teaching – Learning process, Administration, infrastructure and facilities of the institution feedback from Students, Parents, Teachers, Employers and Alumni ‘s taken in every year.</p> <p>To take care of these, following are the committees appointed for various purposes:</p> <ol style="list-style-type: none"> 1. Anti-Ragging Committee 2. Grievance Redressal Committee 3. Committee for SC/ST 4. Internal Complaint Committee 5. Internal Quality Assurance Cell <p>Financial support is provided to faculty and students for participation in Competitions, conferences and Faculty Development programs etc.</p> <p>Special efforts taken in the field of research, social causes etc. are recognized by the institute.</p> <p>Academically weak students are supported by offering remedial coaching in the departments and providing special attention.</p> <p>Suggestions boxes are kept at easy-to-approach places in the campus. Suggestions received in the boxes are sorted out and passed on to the respective committees. Even anonymous suggestions are attended by respective committees.</p>
<p>Student Feedback on Institutional Governance/ Faculty performance</p>	<p>The students are encouraged to give their feedback regarding the institutional governance through the suggestion boxes.</p> <p>The student’s feedback on the performance of the faculty is taken online twice a year in each semester, so that, the concerned faculty members can know their areas of improvement.</p>
<p>Grievance Redressal mechanism for Faculty, staff and students</p>	<p>Regular meetings of the faculty are conducted in each department under the chairmanship of the respective HOD’s. The problems, if any, faced by the faculty regarding the administrative and academic grievances are discussed in the meetings and the concerned HOD’s try to redress these grievances at the departmental level and sometimes may refer the matter to the Principal depending upon the gravity of the problem.</p> <p>The grievances of the staff, if any, are referred to the Registrar and the Principal with a view towards their Redressal.</p> <p>The grievances of the students are tackled by Mentor- Mentee system with a faculty member working as a mentor for about 20 students. The academic problems faced by the students are tackled by the respective subject teachers in consultation with HODs. If any other problems of the students, are made known to the college management through the suggestion boxes and remedial measures for the Redressal of these grievances are taken at the proper level.</p>

List of Major Equipment/Facilities in each Laboratory/Workshop

KARMAVEER BHAURAO PATIL COLLEGE OF ENGINEERING , SATARA.

13. LABORATORY DETAILS

1.

Sr. No	Particulars	Details
1	Dept. and Level Wise	Civil Engg - UG
2	Programme	Engineering & Technology
3	Level	UG
4	Course	Civil Engineereing
5	Name of the Laboratory	Concrete Technology lab
6	Major Equipments in the Laboratory	Compression Testing Machine (2000KN cap.) & Digital Concrete test hammer
7	No. of PCs available	-
8	Amount spent till date	2,61,862/-
9	Budget for the current Year (in Lakhs)	11.97
10	First Aid Facility	Yes

2.

Sr. No	Particulars	Details
1	Dept. and Level Wise	Civil Engg – UG
2	Programme	Engg. & Technology
3	Level	UG
4	Course	Civil Engineering
5	Name of the Laboratory	Strenhth of Material Lab
6	Major Equipments in the Laboratory	Universal Testing Machine
7	No. of PCs available	-
8	Amount spent till date	503905.00
9	Budget for the current Year (in Lakhs)	1.26.
10	First Aid Facility	Yes

3.

Sr. No	Particulars	Details
1	Dept. and Level Wise	Civil Engg - UG
2	Programme	Engineering & Technology
3	Level	UG
4	Course	Civil Engineering
5	Name of the Laboratory	Soil Mechanics Lab.
6	Major Equipments in the Laboratory	Plate Bearing test
7	No. of PCs available	-
8	Amount spent till date	3,14,409.00
9	Budget for the current Year (in Lakhs)	7.81
10	First Aid Facility	Yes

4.

20.	Best Practices adopted, if any	<p>BEST PRACTICE I Title of the Practice: Imparting skills through Project Based Learning. Objective of the Practice</p> <ol style="list-style-type: none"> 1. To give scope for creativity among the students. 2. To help develop critical thinking ability. 3. To develop the ability to work in a group /team. 4. To develop the interpersonal skills among the students. 5. To help develop entrepreneurial skills. <p>The Context:</p> <ul style="list-style-type: none"> • In affiliated colleges, classroom teaching and laboratory work is carried out pertaining to the syllabus provided by the affiliating university. The theoretical inputs are given in the classroom whereas skills are imparted during practical sessions. Structured nature of the syllabus seldom allows crossing of the boundaries specified by the syllabus hence there is limited scope for the students to work independently and explore their creativity. Integrating what has been learned in individual courses and applying it comprehensively does not happen. • To bridge the gap, Karmaveer Bhaurao Patil College of Engineering practices project-based learning to complement classroom teaching and laboratory work. Project-based learning helps students to use their creativity. • Attempts are made to offer projects for a batch of students pertaining to the course that is taught in the classroom or laboratory. • Engineering students have to undertake mini projects and major projects as their course work, under the supervision of the faculty, expert in the respective technology domain. Undertaking projects in the small groups related to individual courses give the opportunity to the students to experiment by using their creative ideas and helps them in understanding practical difficulties in implementation. This develops their ability to 	

complete mini and major projects more effectively and efficiently.

BEST PRACTICE II

Title of the Practice: Book Bank Scheme for all students

Objectives of the practice

1. To make the students resourceful in terms of textbooks and reference books.
2. To make education affordable

The Context:

The normal practice regarding the issue of books to the students in educational institutes to issue no of borrowers cards to individual students. Students borrow a book by depositing borrower's card for a stipulated time period, after which he or she has to return the book. If the student has to retain the book he or she has to again go through the same process by approaching the library, thus a student cannot retain books throughout the semester. This limits the availability of the book when required to a student and the student is required to purchase it, adding a financial burden. Considering the cost of the books needed by the student throughout the semester, this becomes a hindrance for economically poor students. Karmaveer Bhaurao Patil College of Engineering since 1990-91 is handling this issue very efficiently and effectively by implementing a book bank scheme. The scheme allows the student to keep at least one book of every course throughout the semester and makes the student resourceful without having a financial burden. A social welfare scheme by Government makes the facility of book bank available to certain reserved category students. Karmaveer Bhaurao Patil College of Engineering, however, offers the facility to each and every student of the institute. The Practice Every student is offered a maximum of seven books (normally student studies 5 theory courses in every semester). The student may opt for getting up to 7 books on the scheduled date. Normally, textbooks prescribed in the syllabus are issued under a book bank scheme. Student if prefers to get books less than 7 while entering the scheme, he or she can add books up to 7 during the semester. By this way, all the students can maintain books with them for the whole semester. Yearly maintenance of the books returned by the students at the end of the semester is carried out from the amount collected from the student as well as it helps to purchase new books to replace damaged books to purchase new editions. The schedule for every class and every department is displayed on the library notice board as well as on departmental notice board to give wide publicity. The care is taken to ensure minimum disturbance in the academic schedule of the class. Students return the books after completion of their end semester examination. Based on earlier experience number of copies are added each year to ensure quantity supply of the books as per student's choice and requirements. Students need to refer reference books also along with textbooks. Hence, the book bank scheme is also supported by issuing borrower's cards. Students can borrow a reference book by using borrower's cards and I-card by following the usual practice of issuing book by depositing borrower's card or I-card. This

	practice allows access to both the textbook as well as a reference book.
